Heating Element Technologies

**Rica**  
**Etched Foil**  
**Business Unit**

RICA being part of ZOPPAS INDUSTRIES, is the world leader in the manufacture of heating technologies, such as flexible heaters, cartridge and cable heaters with integrated sensing and mechanical assemblies. Flexible heating elements include silicon, polyimide, polyester and mica constructions. Cartridges are high density heaters that offer different power ratings and special surfaces. All Rica heating solutions are custom designed providing the best in performance whilst meeting the customer's requirement.

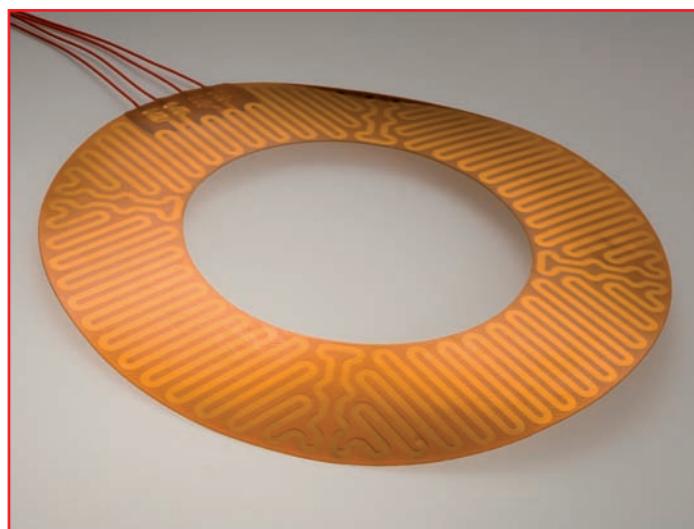

**AVIATION**  
Heaters for: floor panels  
camera lenses  
batteries  
deicing

**MILITARY**  
Heaters for LCD monitors

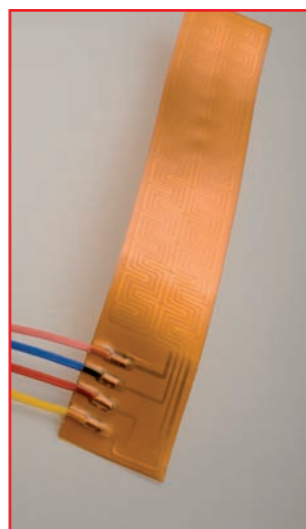

**NAVAL**  
Heaters for Torpedo
